

ChartLens - Medical Records Analysis Report

Case Number:	N/A	Client Name:	Mustafaa
Date Range:	2025-01-08 to 2025-04-01	Risk Assessment:	HIGH
Total Billed:	\$26,264.00	Total Paid:	\$10,200.40
Total Events:	13	Inconsistencies:	4 (1 high)

Medical Events Chronology

Date	Provider	Visit Type	Diagnosis	Billed	Confidence
2025-01-08	Tampa General Hospital Emergency Department	Emergency Department	Cervical sprain/strain, Lumbar contusion, Mild concussion without loss of consciousness	\$8,450.00	High
2025-01-09	CVS Pharmacy #4821	Prescription Fill	-	\$41.00	High
2025-01-15	Advanced Imaging of Tampa	Procedure	Cervical sprain/strain, Lumbar contusion	\$4,200.00	High
2025-01-22	Tampa Bay Orthopedic Specialists	Consultation	Cervical disc herniation C4-C5 with right C5 radiculopathy, Lumbar disc displacement with radiculopathy	\$850.00	High
2025-01-23	CVS Pharmacy #4821	Prescription Fill	-	\$83.00	High
2025-02-01	ProActive Physical Therapy	Procedure	C4-C5 disc herniation, L4-L5 disc bulge	\$4,801.00	High
2025-02-05	Tampa Bay Orthopedic Specialists	Follow-up	Cervical disc herniation C4-C5 with right C5 radiculopathy, Lumbar disc displacement with radiculopathy	\$425.00	High
2025-02-10	CVS Pharmacy #4821	Prescription Fill	-	\$66.00	High
2025-02-19	Tampa Bay Orthopedic Specialists	Follow-up	Cervical disc herniation C4-C5 with right C5 radiculopathy, Lumbar disc displacement with radiculopathy	\$425.00	High
2025-03-10	Florida Pain & Spine Institute	Procedure	C4-C5 disc herniation with right C5 radiculopathy	\$6,800.00	High
2025-03-10	CVS Pharmacy #4821	Prescription Fill	-	\$19.00	High
2025-03-12	CVS Pharmacy #4821	Prescription Fill	-	\$38.00	High
2025-04-01	CVS Pharmacy #4821	Prescription Fill	-	\$66.00	High

Inconsistency Flags

1. [HIGH] provider_statement_conflicts

Dates: 2025-01-08 / 2025-01-22 | Pages: 1, 4

Emergency department diagnosed cervical sprain/strain and lumbar contusion, but orthopedic specialist later found cervical disc herniation C4-C5 and lumbar disc displacement with radiculopathy. This represents a significant escalation from soft tissue injury to structural damage.

Recommendation: Obtain imaging reports and detailed clinical notes to determine if initial diagnosis was inadequate or if condition genuinely worsened

2. [MEDIUM] provider_statement_conflicts

Dates: 2025-02-01 / 2025-02-05 | Pages: 6, 7

Physical therapy records show L4-L5 disc bulge while orthopedic specialist consistently documents lumbar disc displacement with radiculopathy without specifying level. Different lumbar levels and terminology suggest conflicting findings.

Recommendation: Request detailed imaging reports and clarification from both providers regarding exact lumbar pathology location and severity

3. [MEDIUM] treatment_gaps

Dates: 2025-03-12 / 2025-04-01 | Pages: 12, 13

No medical treatment documented between March 12, 2025 and April 1, 2025 (20-day gap), followed by only pharmacy fill with no provider visits for ongoing disc herniation management.

Recommendation: Investigate if patient received treatment elsewhere or if there was treatment abandonment that could affect case value

4. [MEDIUM] billing_anomalies

Dates: 2025-02-01 / - | Pages: 6

Physical therapy billed \$4801.00 for single session on February 1, 2025, which appears excessive for one treatment session and suggests possible billing for multiple sessions or procedures.

Recommendation: Request detailed billing breakdown and treatment records to verify services actually provided and justify high single-session charge
